## Morocco has it all: Africa's most attractive mining jurisdiction to organise major mining Congress in 2025

**IMC 2025**, the second edition of the **Morocco Mining Conference & Exhibition** will take place **24 – 26 November 2025** in the idyllic city of **Marrakech**. IMC 2025 will once again be organised by the **Federation of Mineral Industry of Morocco (FDIM)** and **AME Trade Ltd** and supported at the highest levels by the **Ministry of Energy Transition & Sustainable Development**, the **Ministry of Industry and Commerce**, and **AMDIE**.

**The geological mining potential of Morocco mining**, combined with recently adopted mining legislation, has led the Fraser Institute of Canada to rank Morocco, according to a ranking published in May 2025 as the **most attractive destination in Africa** for mining investment and **8th worldwide for multinational mining companies**.

**Morocco has a range of assets, not only in terms of resources and reserves**, but also in terms of regulations, institutions, and sustainability to produce electro molecules, minerals, metals, and competitive low-carbon and zero-carbon products.

**The Kingdom also enjoys an exceptional geographical position between** Africa, Europe, the Atlantic Basin, and the rest of the world, and constitutes a meeting place for the **major geopolitical blocs** that today influence major technological, environmental, and societal choices.

## IMC Morocco conference themes will focus on the conclusions of the 2025 edition and will discuss:

- ✓ **How the mining sector can improve its competitiveness** through the implementation of tax incentive measures adapted to the specificities of the mining exploration and development phase to simulate investment
- ✓ **Simplification of administrative procedures**, particularly for the processes of obtaining land use permits
- ✓ **Establishment of specific mechanisms** to improve access to financing for SMEs in the mining sector
- ✓ **Strengthening of geological infrastructure**, developing infrastructure and systems for accessing geological data to support research and innovation
- ✓ **Skills development** by training qualified engineers, technicians and operators to meet the growing needs of the sector.
- ✓ **The importance of innovation, environmental sustainability**, community engagement, and new technologies to ensure a more responsible and environmentally respectful future for the mining sector
- ✓ **Decarbonization solutions** to position the country as a key player in the global energy transition, especially in the electric vehicle and renewable energy industries
- ✓ **The importance of transparency**, social license, and reforms to ensure long term economic and social viability.
- ✓ **The diversification of career opportunities and integration of research** into a sustainable mining vision to enhance the sector's effectiveness as a driver of economic and social growth

# Morocco has it all to be Africa's premier sustainable mining investment destination.

**Diverse mineral offering:** regular production of varied mineral substances including **phosphates, lead, zinc, copper, gold, silver, cobalt, manganese, fluorine and barite needs of the sector.**

**Three quarters of the planet's known phosphate reserves** & the world's top exporter of crude phosphates.

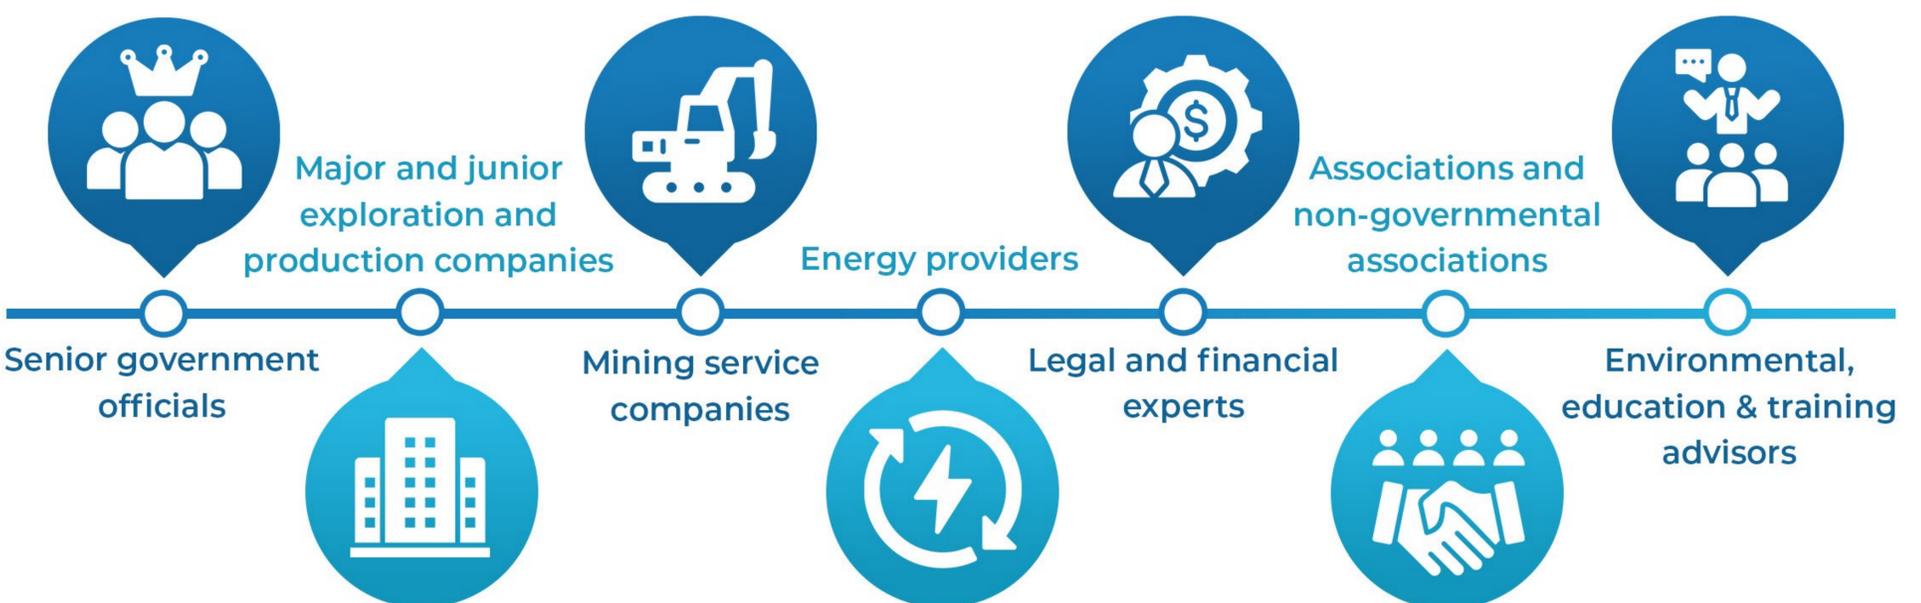

**Ambitious plans:** to double 2020 revenue from non-phosphate mining to greater than \$1.7 billion by 2030, this is coupled with a green strategy for responsible & sustainable mining in agreement with the European Union.

**The centre of the global battery minerals production and processing revolution:** Battery industry giants have announced three major electric vehicle battery plants in Morocco.

**Morocco has the world's ninth largest producer of cobalt with a production of 2,000tn a year.** Morocco aims to exploit its cobalt reserves as part of the supply chain for rechargeable batteries.
